

Configure and Apply Models

Specify the number of failures for which the models will make predictions

Specify for how many failures into the future the models will predict

Choose one or more models to run, or exclude one or more models.

Delayed S-Shape Geometric Goel-Okumoto Jelinski-Moranda Weibull

Run Selected Models

Display Model Results

Choose one or more sets of model results to display.

No model results to display

Choose the type of plot for model results.

Choose a plot type

Cumulative Failures

For how much time should the model results curve extend beyond the last prediction point?

☒ Show data on plot

☒ Show end of data on plot

Draw the plot with data points and lines, points only, or lines only?

☒ Both ☐ Points ☐ Lines

Choose the type of file to save plots. Tables are saved as CSV files.

☒ JPEG ☐ PDF ☐ PNG ☐ TIFF
